Fourth Grade Fun Math Games
The lesson in Mr. Ehle’s 4th grade class was math games. They were playing math games for R.T.I. The purpose of the lesson is all about multiplication facts and to learn.
Kayvion And Austin Having Fun

Kayvion was doing a multiplication game. They had to lay out two cards and multiply them and whoever gets the highest product wins. Whoever runs out of cards, will lose. Remember, it’s about having fun and playing fair.
Payton is playing Prodigy and he’s on level 56. Prodigy is a fun math game where you get pets and fight other wild pets. You can catch them in a battle.
