Having fun in the class

By: Lorelei Melton & Kylee Rauhaus

We went to Ms. Fennell’s Life Skills classroom. We asked Garrett what he is learning. He said, “I’m learning how to use technology.” Next, we asked Gabe why it is important to learn about Valentine’s Day. He said, “Because it’s about love and hearts.” Lastly, we asked Kamryn if she likes her class. She said, “Yes, because she likes calendar, her friends, and being silly.” The teacher said we interacted well with the students and we did a great job. The lesson was learning about Valentine’s Day, books, and devices. The purpose of their activity was to have fun. We loved coming in here and having fun with the students.
